

SKIN TESTING POLICY

Colour Responsible Policy & Protocol

EL esha Skin Test and Screening for sensitivity and reactions protocol.

We will be following 3 different procedures in the salon so you can choose which suits you best.

For your first colour service with EL esha an AAT (Allergy alert test) is compulsory. Make an appointment to attend the salon at least 48 hours before your appointment. We will apply a small amount of colour formula to the inside of your elbow. Leave for 48 hours, should you experience any signs of irritation, reddening, swelling, inflammation or itching please contact us. If you develop symptoms that make you unwell, please contact a medical professional. When you attend the salon, we will observe the test site and ask you to complete a screening questionnaire.

You can find more information about ColourStart on their website along with a video for application for your test.

1. We can follow NHBFF (National Hairdressing & Beauty Federation) Protocol so once your initial AAT test we Skin test every 6 months, ask screening question which YOU (the client) and US (the stylist) must sign after the questions have been answered, if nothing has changed we can carry on with the colour service.
2. We also offer the new ColourStart passport which gives You (the client) more responsibility and freedom with and when you have your hair Coloured. The new ColourStart Passport is regulated by the MHRA; as it is a medicine so there is a cost of £15.00, you need to register on www.colourstart.com put your information on to the system, answer the screening questions, if everything is ok you get a Green tick which gives you and us the go ahead to have your colour service. ColourStart have their own GDPR policy, we will not see any information other than the green tick. You then share your results with EL esha (we are registered)
